Art Unit: 1755

1. This Office action is in response to the amendment filed 12/9/03 and telephonic interview of 2/4/04 and refers to the first Office action mailed 9/25/03.

2. The claims remain allowable over the prior art of record since none of said art fairly discloses or teaches a nickel diimine compound with at least two nickel atoms in it, both being bonded to diimine ligands in at least a dimeric chain. The non-elected claim to a method of polymerizing ethylene using the claimed catalyst precursor is now rejoined.

3. Claims 1-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, text line 8, change "is" to --are--; between the last two formulas change "and" to --or--.

In claims 2-9, please make sure that there is no comma immediately after "wherein" in the first one or two lines.

In claim 10, in the two last formulas of polymers, the Y variable is now undefined since it was removed from the text of the claim; in step (b), first line, insert --a-- before "coordination reaction"; in the penultimate line R_2 is repeated, and R_3 and R_4 are not in the claim as now written, but will be when Y is changed to CR_3R_4 .
